Prosperity.

Mt. Sterling is a prosperous city—evidences can be seen in every department of business. Go with us to our stock pens and view the number of cattle from the many counties in Eastern Kentucky, frequently running as high as 10,000 in a day, and for them is a brisk market as the result of many buyers from various States. With them are hogs, sheep, mules and fancy horses. And there is more white burley tobacco shipped from Mt. Sterling than from any one station in Kentucky. A distributing point for twenty-seven counties of Eastern Kentucky. Our manufacturers of flour are actively engaged the year round and find a market for the large out put. Machine shops are always well filled—our taxes are low, and prospects for additional factories are exceedingly flattering. Every man can find employment and the gabble of croakers is a thing of the past. Every branch of business is prosperous and the sound of the hammer can be heard in many directions, while new residences and business houses are being constructed. All this is in advance of the completion of the water plant and proposed electric railways. Flattering is the outlook for Mt. Sterling. We must have organization for with it would come extensions sought which would make Mt. Sterling a hub city. Give us the business men's club, now.

"Theodora" or "Her Last Race."

The conscientious effort of several managers, of two months' rehearsals and a summer devoted to preparation on the spectacular production of "Theodora" or "Her Last Race," the masterpiece of the world's most famous living playwright, have been rewarded by one of the most sensational triumphs of the decade. Aside from the great hits scored by the elaborate scenes and costuming, have assured a handsome recompence for the preliminary labors before the initial performance at the Boston Theatre. The organization presenting the spectacular drama numbers over fifty people, and is composed of actors of reputation and merit.

This great show will come to the Opera House soon. Watch for date.

An entirely new phase has developed in China, and it may prove awkward for the United States. The envoys have agreed to submit to their Governments articles 8 and 9 of the Chinese protocols, which relate to the razing of the forts and the occupation by foreign troops of a line of communication from Peiping to the sea. The point is whether countries withdrawing their troops can be represented in settling this matter. If not, the United States would be deprived of all voice as to occupation and might be put out of China altogether.

Information comes from Shanghai that China has refused to sign the Manchuria treaty, as demanded by Russia, the time for which expired Tuesday. If Russia keeps her threat negotiations will be broken off. After the Cabinet meeting correspondence was made public showing that the United States, under date of March 1, protested to all the Powers against China considering any private territorial or financial arrangements. The protest was also given the Chinese Minister February 19. The United States is prepared to use its moral suasion and influence to prevent the consummation of the secret treaty, but does not seem willing to go farther. Japan alone, having Corea to protect, seems bold enough to openly protest.

Just What We Have.

Take a good, clean, honest business man, one who can make his own business thrive like a green bay-tree, one who can whom up a commercial club or go out and raise a hundred thousand for a public enterprise, one who would be as much at home at the head of a bank or manager of an ecclesiastical institution, and he'll make a good Mayor.—Critic.

Genius young men, live men, wise men, sober and discrete in every office within the gift of the people. Neither bloats nor slugs should find recognition from any source.

In Trouble.

The President and War Department are greatly embarrassed at the pressure that is being brought to bear upon them for the appointment of young colored men who have served in the volunteer army to Lieutenants in the regular army. Not only have several Northern Congressmen and a Senator or two asked for such appointments, but colored bishops and clergymen have appealed to the President in this regard.

Experience has shown that no matter what the theories of the equality may be, colored men as commanding officers are not satisfactory. There are only four colored regiments in the regular army, and their color causes friction. Every white officer would resent the appointment of colored men to command rank, no matter how well educated or capable they might be.

Americans are known as a dyspeptic people. The extent of this disease may be inferred from the multitude of so called "medicines" offered as a remedy. They are often in tablet form and have no value except as palliatives of the immediate effects of dyspepsia. The man who used them may feel better but is surely getting worse. They do not touch the real cause of the disease. Dr. Pierce's Golden Medical Discovery is a medicine specially prepared to cure diseases of the stomach and organs of digestion and nutrition. It is not made to give temporary relief but to effect permanent cure. In ninety-eight cases out of every hundred it cures perfectly and permanently.

It has cost Dr. Pierce \$25,000 to give away in the last year the copies of his People's Common Sense Medical Adviser, which has been applied for. This book 1008 pages is sent free on receipt of twenty-one one cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

From Washington.

Here is a letter from D. B. Garrison, Tacoma, Washington. We do wish he had written a letter for publication. It would have been a feast of good things to have been enjoyed by the patrons of the Advocate. We hope he will take a rest and give us one of those letters which abound with things new and old pertaining to Washington.

TACOMA, WASH., March 20, 1901.
The Advocate, Mt. Sterling, Ky.

GENTLEMEN.—If I had a good letter I think I could write you a good letter. The impulse is strong upon me but I am overworked. Will return to Olympia April 1 to reside.

Please send \$1 currency for which send paper to Mrs. D. B. Garrison, Olympia.

With the same old love for my Mt. Sterling friends, I am sincerely,

D. B. GARRISON.

The President has pardoned John L. Bowley, who was convicted of embezzling money order funds while postmaster of Paris, Ky.

HORSE AND TRACK.

Lockridge & Feeler have sold their fancy saddle horse, Railey, to Jim Ferig, of Titusville, Penn., for \$700. This horse was bought about a year ago in Bath county and was a green horse. He is now considered one of the finest gaited horses that ever left Kentucky. Railey was gained by Mr. Joe Feeler and shows that he certainly knows his business.

Mr. Alton Jones, of North Middle town, sold his fancy combined maste to a Louisville party for \$750.

John R. Gentry 2,014, if raced all this year, will be raced against J. Patches 2,014 only. He will be used extensively in the stud this season.

Andy McDowell, who drove Alex 2,032 and Azota 2,042 to their records, is confident that Borsdale can beat The Abbott in a race. "It he was my horse," said McDowell, "I would match him against The Abbott in a race at any distance from a panel of ten to forty miles." They say Andy is very anxious to drive the Lawson horses this summer.

Articles of incorporation for the Memphis Trotting Association were filed on Wednesday, March 13, and Seth Griffin immediately commenced work on a new track, steel grandstand and club house, to cost \$200,000. C. G. K. Billings and Frank H. Jones are backing the project, and the plant will be one of the best in the country. Griffin says he has all the facilities for making the track at Memphis the fastest in the United States.

Entries to the Kentucky Futurity, \$21,000, for trials of 1901, closed on Friday, March 15, and up to Monday over 1,000 mares had been named with breeders from the far West yet to be heard from. It is expected that these will increase the figure to 1,500, which is a few more than the stake record of 1,455 made in 1900. All returns will be in within the next few days, and it now looks as if the entry list will be the greatest ever received.

KILLED THE CONDUCTOR.

Then Brakeman Goodin Leaped From the Train and Returned To Lexington

To Surrender.

John Scanlon, freight conductor on the Chesapeake and Ohio road, was shot to death between the hours of 3 and 4 o'clock last Tuesday morning near Pine Grove, by John Goodin, the brakeman on the train. Scanlon was shot five times. Goodin jumped from the train and gave himself up and was taken to Lexington.

The train pulled into Mt. Sterling before Scanlon's body was found, the two men being the only ones in the caboose. The authorities took charge of the corpse. Scanlon was about forty-five years old and lived in Lexington.

AMONG THE RAILWAYS.

Rock Island Will Run Cheap Excursions to Colorado.

The Chicago, Rock Island and Pacific railway, which made a phenomenal success of cheap excursions rates to Colorado last season, has again asked its competitors in the Western and Southwestern passenger associations to agree upon a series of cheap excursions to and from Denver, Colorado Springs, and Pueblo for the approaching season, on the following basis: Tickets to be sold from Chicago and all territory up to Mississ. river, June 18, 25, July 16, 23 and 30, Aug 6, 13, 20 and 27, at a rate of one fare plus \$2, or \$3.50 for the round trip.

On July 2 and 9 and Sept. 3 and 10, at a rate of \$2 is to be made from Chicago, and \$15 from Missouri river points for the round trip. Intermediate territory will have proportionate rates. Tickets are to be sold from Missouri river points one day later than the dates given above in each case. Proportionate rates will be made to and from Glenwood Springs, Salt Lake City and Ogallala.

A series of East bound excursions is also proposed, tickets to be sold from Colorado common points every Thursday, commencing with June 20 up to and including Sept. 12, at a rate of one fare plus \$2 for the round trip. All tickets will be limited for return passage to Oct. 31. These rates will be tendered connecting lines for basing purposes, which will probably insure a very low basis of rates throughout the United States for these excursions.

The Chicago, Rock Island and Pacific will unquestionably make these rates and arrangements effective, regardless of the action of its competitors, and will run special trains, only one night out to and from Colorado, on the dates named.—Chicago Inter Ocean.

Beware of Ointments for Cataract

that Contain Mercury

as mercury will surely destroy the sense of smell and completely damage the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damages they will do is ten fold, to the good you can possibly derive from them. Hall's Cataract Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In having Hall's Cataract Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

It is our pleasure to announce JOHN D. MCINTYRE, of the county of Bath, candidate for the Legislature, of the district composed of the counties of Rowan and Bath, subject to the action of the Democratic party.

NEITHER MONEY

NOR WHISKY.

The candidates for Democratic nomination for Assessor have entered into an agreement pledging that neither they nor their friends will use money or liquors in the campaign. Such a course is in accord with the spirit of good morals. So in earnest are these gentlemen that forfeiture goes with the agreement.

This action on the part of these candidates is strictly Democratic and is commendable, the will of the people to be observed. Too long has Democracy adopted Republican methods, for it is said by the people—good Democrats and moral Republicans—the Democratic party has become contaminated, a question to be pondered.

Kentucky politics must be purifed; men must vote an judgment dictates; votes must be counted as cast, and the majorities must rule. This is Democracy, and we have faith that Montgomery County Democracy will purify itself.

The day has dawned when the good people will no longer walk in what is termed political fifth.

We must be just in our own ranks and then with opposing parties. Because the Republicans stole the presidency once is no reason why we should do likewise.

It is our pleasure to announce as candidate for the legislature for the district composed of the counties of Rowan and Bath, Hon. John D. McIntyre, of Bath county, editor of the Bath County Democrat. A Democrat is he, free from domineering spirit, glorying in the man with convictions as the result of logical reasoning. A Democrat because he is an advocate of free government of and by the people. A Democrat with equal rights to every individual, rich or poor, with special privileges to none. He is a Simon pure Democrat, honest, industrious and free from the habits that dethrone manhood, one who is of the great common people. The very kind of a man whom a constituency would be proud, and one who would not only vote right but would be able to introduce and pass bills that would prove beneficial to our commonwealth. Let his nomination be unanimous.

The Court of Appeals has reversed the verdict in the case of Commonwealth against Caleb Powers and James Howard, and hence a new trial is granted them. We were prepared for this and are glad that it is so. A Republican court has returned the case to the lower given their reasons for so doing, and by their action in ignoring the pardons of W. S. Taylor, disclaim any Republican right to the office of Governor. It confirms the legal action of the Democratic party and announces to the world that Wm. Goebel was Governor of Kentucky. That he was slain there is no question; that there was a conspiracy everyone with power to reason believes, and when the testimony and

law is again applied it is our opinion another jury of honest men will find a verdict not materially different from the one reversed.

Aguinaldo having been captured the next question is what to do with him? Some have suggested bringing him to the United States, where he may teach the people, those in authority, of the minds of his followers that they may know better how to treat them. This may prove a valuable suggestion, judging from the amount of money expended and lives lost. The administration has proved that they know but little about conquering his people. We would say treat the Filipino leader with that same humane kindness as we would any other prisoner of war.

Of a business, active in its various departments much can be said. Every live business has stock in it just the articles to meet their trade. These articles are according to style, but very different, and the trade must know what is up to date. We, therefore, find many engaged in designing patterns and making illustrative cuts, that the people may know the article by name only, but its real style and fit. These patterns and illustrations find their way to the people through the local press. The very fabrics in the varied styles are so described that we not only know them, but their values. The firm that can meet the demands of the greatest number must be the most successful.

QUICK COMMUNICATION.
Helps the Public to Materially Influence
National Legislation.

"The means of quick communication that exist to-day are developing new phases of influence on legislation," said an old employee of the senate recently to a Washington Star reporter. "It is surprising to members of the finance and appropriations committees to find how quickly any proposed action discussed by them will be known throughout the country, and how promptly telegrams, either approving or protesting against the measure under contemplation, are sent to them. To-day, it may be, correspondents telegraph their papers that a tax is to be laid on a certain article. That information is printed in the next morning's papers throughout the country, and while the committee is in session later in the day telegrams come in by the score to its members, either protesting against or commanding the action. A short time ago at a morning session of the finance committee about 100 telegrams were received by its members bearing on an item of taxation that they were then discussing."

Lighting a Cigar with Ice.

A patent lawyer, who is naturally ingenious man, was asked by another lawyer, who wanted to light a cigar, for a match. None was forthcoming, so the patent lawyer lifted the cover from the water-cooler, took out a piece of clear ice about one inch thick, whittled it into the shape of a cigar, and with the palms of his hands melted its two sides convex, thus giving the form of a double convex lens or burning-glass. With it he focused the sun's rays on the end of the cigar, and set it on fire.

New York's Social Settlements.

A signalman with a turn for natural history has shown once again the extent of the destruction wrought by trains. He has kept a list, which though necessarily not exhaustive is immensely long, of the victims along a stretch of line about three miles.

The list includes cats, foxes, dogs, hawks, rats, hares, rabbits, a cow, a sheep, an adder, a long-eared bat, a hedgehog, and thousands of frogs.

Among the birds are a kingfisher, a kestrel hawk, rooks and night-jars, to say nothing of the more familiar species.

FACTS AND OBSERVATIONS

The writer went to Weston on Friday morning, Eraroute he observed that considerable plowing had been done. At Morehead tiles have been distributed along the Morehead & West Liberty Railroad preparatory to track laying as soon as the rails are received.

We are writing friends and read editorial in Christian Standard and Christian Union—a subject which should be prayerfully considered by all who have faith in the Christ.

For this Christ prayed: for this Christians should work in accord with the explicit teaching of Christ and those who spoke by divine authority. Of them men would be wise intent to know and do the Master's will.

When denominational barriers are broken down the conversion of the world to Christ will be hastened; and much of sorrow, tears, poverty and shame will disappear.

Reader, are you desirous of this? If not, why not?

We spent a few minutes on daily paper giving account of decision of Court of Appeals in cases against Cain Powell and James Howard and of how Agnialdo was captured by strategy, etc., etc.

As we left the depot at

DENTON

One traveling man said something to another about getting the best

dinner on earth at the Denton Hotel kept by Mrs. Jerome Duvall.

Observe—A week ago last Monday standing the writer refreshed himself with that fine spread and then proceeded to facts and business.

Since our call two weeks ago Mr. C. A. Evans, recently of Weston, Elliott county, has opened a stock of general merchandise. He has been in the mercantile business for 7 years.

James Yates, then sick, died of typhoid fever.

Farmers are busy preparing their land.

E. Webb, the merchant, has opened a \$3 ft. vein of bituminous coal on his farm near town.

What is to happen? Our young friend, Millard Cooksey, was very pleasing—looked as if he had found a Pearl of great price, or something else.

MARRIED.

On March 23rd, Mr. William McQuirter to Miss Mamie Sease.

On March 26th, Robert Day to Miss Nora Balden.

Their lives be long and happy.

Grand Opera House tonight only. A valuable present given to each person attending. Positively no fare. Prices 25 and 35 cts.

Mrs. K. O. Clarke was pleased with the result of her millinery display. Her attractive goods were readily in demand.

A Few Reasons for Breeding to Wildfire, the Hackney Horse.

1st.—Hackneys are naturally the highest stepping and trappy acting horses, and what the market demands.

2nd.—The market that supplies the wealthy people of the great cities wants this kind to sell at high prices. So the breeder gets more for them.

3rd.—The Hackney horse is a natural, pure gaited trotter; will not stumble, pace or fall down, because he is not built or bred that way.

4th.—For two hundred years they have been bred for the greatest road horses—holding the long distance records from 200 miles down to 10 miles.

5th.—They are the horses that stand the wear and tear of city work, and are the horses seen in use on the streets of our great cities and in the parks, for they are not only durable but stylish.

6th.—They will improve the progeny of your long legged, narrow bodied trotters, and give them short legs and backs and good bodies; besides high action, style and durability.

7th.—As they are the foundation of the trotting horse, and have been bred for the past 200 years for road purposes, and not track purposes they make the best cross on the light track bred horse to redeem them for road and street service. They it.

Crossing the Hackney on the Kentucky bred trotting, saddle and thoroughbred mares is no experiment, but a long assured success.

Senator Fairfax, of Virginia, made these crosses and sold the produce at public sale in New York City at an average of over \$700 a head for three years. He paid \$15,000 in England for Matchless of Lonesboro, the sire of Wildfire, that made this most famous cross, and now you have the same opportunity.

BIRTHS.

On the 25th of March, 1901, there was born to Bell a high stepping colt by Wildfire. This is the first colt in this part of the country by this great Hackney sire, and Mr. T. J. Bigstaff, the owner, is in doubt whether to name the colt "Fire First" or "Fire Bell." The colt is attracting much attention of the people anxious to see the Hackney.

HAZELGREEN.

Mrs. John Taulbee and family, and Richard Debusk, and wife expected to leave Hazel Green on yesterday for Ardmore, Indian Territory, where they will reside. Dr. Taulbee will follow as soon as he can adjust his business affairs. He is a brother of Dr. Taulbee, of Mt. Sterling.

N. B. Graham's son aged seven fell and broke his left arm.

Rev. J. J. Dickey of Campion, will deliver the Baccalaureate sermon at the Academy on June 2nd. Prof. Cord attended the Congress of Christian Churches in Lexington and conferred with the C. W. B. M. in regard to further assistance to the Academy.

Robert Kash has purchased the Rolly Clark stock of goods at Toliver and taken possession.

Dr. A. C. Nickell has moved to Fairgrave, Coles County, Ill.

The town will soon need a doctor as all are gone or going.

Any one can Tell

The man or woman with an irritable temper, restless, fidgety movements, failing memory and lack of concentration is suffering from crippled nerves. The lines of care, the palid checks, the wasting flesh, the dark circles under the eyes tell all too plainly of the worry, the pain, the loss of sleep and disturbed digestion, that break down the nervous forces and consume the vital power. For quick and sure relief nothing equals

"LaGrippe left me with chronic bronchitis, indigestion, constipation, shortness of breath and general nervous prostration. I could not sleep at night and was restless, nervous, irritable and low spirited during the day. I tried many remedies, but with no sign of improvement until I began taking Dr. Miles' Nervine and Nerve and Liver Pills. In a few weeks I was cured." Mrs. P. L. Dutcher, 4303 Erskine St., Omaha, Neb.

Dr. Miles' Nervine.

It relieves the pain, quiets the irritation, strengthens the overtaxed and weak digestion and feeds the worn-out brain and the wasted nerves. Try a bottle to-day.

"The society dances and the fashionable modish of the city have a particular interest in "Theodore," which will be presented at the Opera House Saturday matinees and night, as the title role will be dressed in a most gorgeous manner by Miss Kate Daugherty. She will wear six different costumes purchased in Paris at cost of \$7,000. The garments, particularly that worn in the imperial box, are heavily laden with jewels, gold thread and precious stones. A diamond girdle which encircles the waist and reaches the floor, is especially beautiful, as is also the crown which she wears. It is made of silver and adorned with diamonds of gems."—Lexington Democrat.

SORES AND ULCERS.

Sores and Ulcers never become chronic unless the blood is in poor condition—it is almost, we might say, unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the skin, and great danger may result if now since the time before blood has been made pure and healthy impurities eliminated from the system.

S. S. S. begins the day by cleansing and invigorating the blood, helping up the general health and removing from the system.

A CONSTANT DRAIN UPON THE SYSTEM.

When this has been accomplished the discharge goes on ceaselessly, and the pores of the skin. It is the tendency of these indolent sores to grow worse and worse, and eventually to destroy the bones. Local application of S. S. S. helps to some extent alleviate pain, causing the patient to forget the trouble. S. S. S. does, and no matter how apparently slight the condition, though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated tissue.

Mr. J. W. Talbert, Lock Box 245, Wilson, Miss., says: "I have been successful in getting the feet wet again my leg from the knee to the foot was so bad that I could not stand on it. I had two trips to Hot Springs, but found no relief there. I used S. S. S. and it made a complete cure. I have been a perfect specimen ever since."

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Child Gored By a Cow.

William, the sixteen-months-old infant son of City Clerk Ben Marshall, of Frankfort, had a miraculous escape from death. A vicious cow became infuriated at the child which wore a red jacket, and attacked it furiously. One of the cow's horns penetrated the child's neck to the hollow, barely missing the wind-pipe.

Mother! Beware of those secret robbers of your baby's quiet and health. Those sleepless nights and long hours of tireless vigil are caused by those terrible enemies of childhood—worms. Destroy and remove them with White Cross Vermifuge. Price 25 cents. Thos. Kennedy.

During the disinterment of the bodies of six American marines killed in the siege of Pekin the Russians were particularly noticeable for their courtesy, detailing two companies to participate in all the ceremonies.

Pity and Beauty

The most beautiful thing in the world is the baby, all dimples and joy. The most pitiful thing is that same baby, thin and in pain. And the mother does not know that a little fat makes all the difference.

Dimples and joy have gone, and left hollows and fear; the fat, that was comfort and color and curve—all but pity and love—is gone.

The little one gets no fat from her food. There is something wrong; it is either her food or food-mill. She has had no fat for weeks; is living on what she had stored in that plump little body of hers; and that is gone. She is starving for fat; it is death, be quick!

Scott's Emulsion of Cod Liver Oil is the fat she can take; it will save her.

The genuine has this picture taken no other will try it, and for sample, its agreeable taste.

GREAT STRENGTH OF FISH.

Their Remarkable Agility Remains the Despair of All Scientists.

"The flight of birds has been studied from time out of mind without yielding the first syllable of its secret," said an enthusiastic amateur naturalist of New Orleans to a Times Democrat man, "but it is not a whit more mysterious than the movement of fish in water. Their speed, their sudden leaps from fixed positions, their abrupt turns in less than their own length, the extraordinary inertia that enables them to swim against tremendous currents—these and a hundred and one other things have been the despair of every investigator. We know that such miracles are performed in some manner by movements of the fins and tail, but in ninety-nine cases out of a hundred those organs are altogether too small to account for the apparent power they develop. In less time than it takes me to tell it I see a three-inch gold fish in a glass globe will upset every law of dynamics in the text-books. It does things that are theoretically impossible. While I was in Washington on my vacation last summer," continued the speaker, "a relative of mine who is a designer in the Bureau of Naval Construction told me that the department experts had made extensive studies of the movements of different fish, with a view to improving the hull lines of torpedo boats. What little data they secured proved useless when applied to working models, showing conclusively that the real secret had eluded the observers. I have a one-sized tank at home in which I keep a number of small fish, and at different times I have made some curious observations, especially as regards their speed. One of the fish is a young fresh water trout, about five inches long. On several occasions I have watched it with a timing instrument while it was making plunges for flies on the surface of the water. It would approach leisurely at not over six inches to the second, until about half a yard from its prey, and then leap straight for the mark like an arrow from a bow. The intervening distance would be covered in approximately the tenth of a second. That doesn't sound very remarkable in cold figures, but imagine a steamship jogging along at about five knots an hour, and then, in the twinkling of an eye, increasing its speed to a mile a minute. The feat would be no more astonishing than that performed by my little trout, and what makes the mystery all the greater is the extremely delicate and flexible character of its tail and fins. They seem to offer no purchase worth mentioning against the water; it is as if an ocean liner had a propeller made of gaze; yet, comparatively speaking, they accomplish more than the most powerful machinery ever built by man. When Nature gives up the secret, if she ever does, we are apt to see the true submarine boat."

NEW TYPE OF ANCHOR.

Disc-Shaped Device Stronger Than the Ancient Fluke.

Marine men are much interested in a new type of anchor which is an application of the water jet to the mushroom anchor. The device consists of a cast disk of iron ten inches to six feet in diameter (the latter being sufficient for ships of the largest size) being attached to the anchor chain. The disk has a piece of pipe passing through its lower face. When it is desired to anchor a boat is attached to this pipe and a stream of water is sent through the pipe while the anchor is being lowered. The stream of water cuts out the bottom from beneath and allows the disk to sink several feet beneath the surface of the bottom, when the hose is disconnected and withdrawn. The earth immediately settles in over the disk and gives it a holding power greater in excess of the usual fluke anchor. When it is desired to withdraw the disk the end of the hose is supplied with a ring which slides down over the anchor chain and washes the earth away down to the disk by a series of jets, thus rendering the disk easy of withdrawal.—Railway and Engineering Review.

AGUINALDO CAPTURED.

Gen. Funston the Hero of the Event. Will the War Cease?

A confidential agent of Aguinaldo arrived February 28th at Pantabangan, Northern Luzon, with letters dated January 11, 12, and 14. These letters were from Emilio Aguinaldo, and directed to Bademoc-Aguinaldo to take command of the Provinces of Central Luzon, supplanting General Alejandro. Aguinaldo also ordered four hundred men to sent to him as soon as possible, saying the bearer of these letters would guide the men to where Aguinaldo was. This agent with letters fell into the hands of the Americans. An expedition was organized by Gen. Funston who took command, and consisted of Aguinaldo's captured messenger, four insurgent officers and seventy-eight Macabebes who spoke Tagalog, armed with Muskets and Remingtons and dressed to represent insurgents. Funston commanded, accompanied by Captain Hazard, Eleventh Cavalry; Captain Newton, Thirtieth Infantry; Lieut. Hazen, Eleventh Cavalry, and Lieut. Mitchell, Forty-seventh Infantry.

The officers were dressed as Americans and represented prisoners. The expedition sailed from Manila March 6. The Vicksburg landed on March 14 on the east coast of Luzon, twenty miles south of Casiguran. The party marched to Casiguran. The Americans never garnished this place and the inhabitants were strong insurgent sympathizers. Having arrived there, the insurgent officers, ostensibly commanding the party, announced that they were on the way to join Aguinaldo between Pautabang and Baler; that they surprised an American surveying party and killed a number, sparing five. They exhibited Gen. Funston and the other Americans as their prisoners.

Funston and others were kept imprisoned for three days, surreptitiously giving orders at night. On March 25, they reached a point eight miles from Palanan. They were now so weak it was necessary to send to Aguinaldo's camp for food. Aguinaldo

dispatched supplies and directed that the American prisoners be kindly treated, but not allowed to enter the town.

Aguinaldo sent supplies and had his escort of forty men paraded to extend the proper honor. A short dispute was discarded, a combat following with the result that two insurgents were killed and eight rifles and one thousand rounds of ammunition were captured, together with Aguinaldo and his two principal officers.

When the firing began Funston assumed command and directed the attack on the house, personally assisting in capturing Aguinaldo.

The expedition rested March 24, then marched sixteen miles the following day to Palanan Bay, where Funston found the Vicksburg, which brought him to Manila.

Since Aguinaldo has been brought to Manila he has been carried off by numerous former Cabinet members and Generals who have surrendered, and all have impressed upon him the utter hopelessness of the insurgent cause. The capture of Aguinaldo has been followed by important surrenders, and as the news becomes known others are expected. Thousands of natives are taking the oath of allegiance in the United States.

In recognition of Gen. Funston's bravery in capturing Aguinaldo the President on Saturday promoted him to Brigadier General of the regular army.

New Trials Granted for Powers and Howard.

On Thursday the Court of Appeals granted a new trial to Caleb Powers and James Howard, convicted of participation in the Goebel assassination. Reversal in the Howard case was by the whole court, while in the Powers case Judges Hobson, Payton and White, Democrats, dissented.

The decision in the Powers case holds that the Taylor pardon is void and that the indictment is good; but reverses the case and orders a new trial on the ground of erroneous instructions to the jury and the admission of incompetent testimony.

The Howard case is reversed because of incompetent evidence admitted in the trial and other minor points.

Howard's case will be called at the April term of court which begins in Frankfort this week, but it is conceded it will be passed till the fall term. Both Powers and Howard are in jail there.

Fred W. Bassett, representing the Power Grocery Co., of Paris, was in Jackson the past week taking in the orders for his firm. Fred was one of the party who recovered the body of the little girl drowned in the river last Friday, and got thoroughly worked up from head to foot—Jackson Huster.

We have Mr. Bassett's version of the accident resulting in the drowning of the little daughter of Mrs. Margaret Black in the Kentucky River at Jackson. Mr. Bassett was horrified when he saw the boat approach the dam, within the power of the current and a strong wind. He hallooed, "don't jump!"—it was a time of great peril and just before going over the dam the child followed by his mother sprang from the boat. Mr. Bassett knew the water was deep and dangerous; he feared not what might await him, but reliving himself of heavy wearing apparel he ran down the embankment and jumped into the water.

Mrs. Black's body soon came to the surface, and, with assistance, she was rescued—but for three-fourths of an hour, he used every exertion and applied every means to find the child, which had been caught against the dam by suction and was taken from the waters beyond resuscitation. Such screams and grief from a heart-broken mother he had never heard. Thoroughly chilled Mr. Bassett was taken to the home of one of the good citizens of Jackson, where he was properly cared for and suffered no bad result.

WHEREAS, J. F. Richardson, W. H. Wright and F. P. Thompson are rival candidates for the Democratic nomination for County Assessor and it is agreed by and between them as follows:

Each of said candidates hereby pledges his sacred honor as a gentleman that, he, tender directly or indirectly, will use any money toward securing the nomination; that he will not allow any of his friends or any person running for Deputy Assessor to use any money to secure said nomination; neither will he, nor allow any of his friends to distribute whisky, brandy, etc., in his behalf.

This agreement is entered into in good faith and in the interest of the Democratic party. Signed

J. F. RICHARDSON,
W. H. WRIGHT,
F. P. THOMPSON.

Convicted for the Murder of James Bush.

Early in July Howard Wilson and Wm. Stamper, of this county, attempted to arrest Tip Day, near Maribin, Menefee county. In that tragedy Wm. Stamper shot and killed James Bush. Stamper was indicted for murder and his trial began at Frenchburg on Thursday and was concluded on Saturday. The jury found him guilty and sentenced him to the penitentiary for three years.

B. F. Day, of this city, Judge Caudill and J. H. Williams, of Frenchburg, were counsel for him. The Commonwealth was represented by Wm. Young, Commonwealth's Attorney, H. D. Combs and L. H. Overmire, of Frenchburg.

Owners Should Breed Liberally.

The present outlook is that speed horses will reach a price as high as is what we call the boom days of the trotter—twenty-five years ago. It is a mistake, however, to compare the so called boom prices with the prices of to-day. Twenty-five years ago extreme speed was so exceedingly rare that only four or five persons out of our 40,000,000 of people were able to purchase it. It was the extreme rarity that had much to do with the value. In 1867, we had only one Dexter 2:17. In 1900, the Dexters were so common that we have not taken the trouble to count them. As nearby as 1874 we had but one Goldsmith Maid 2:14. In making comparisons of speed values we fail to note the fact that rarity had everything to do with the extreme prices that prevailed in the so-called boom days. Prevailing prices fully justify the opinion that the outlook for the immediate future for the harness horse is brighter than ever before. The road and speed horse, and the show horse are all in fashion, and fashion rules the world. Take our advice and breed liberally in this bright year of the new century. Not only is the demand active and growing at home, but it's growing abroad. Iao, the civilized world is ours.

Now, buying our best in England and France, and borrowing our ideas; it will be at least a quarter of a century before they reach our standard. And if there is any one in this great booming land of ours that is secure it is the harness horse—Western Horses.

Ankle Sprained.

On Monday of last week while Mat C. Clay was on the engine on his company's road leading to the L. & E. road, the water gauge burst. He feared that an explosion would occur or other damage follow, and not noticing that the engine was on a trestle he jumped for safety. He fell about fifteen feet. One ankle was severely sprained and he was otherwise bruised. He is now at home in this city and is improving nicely. He was fortunate in escaping more serious injury. We wish for him a speedy recovery.

The

third annual Congress of
the Christian church was held on
Tuesday afternoon to Thursday
evening in Lexington.

The Congress brought to-
gether more than two hundred of
the ministers of the Christian
church, as well as educators, edit-
ors and other laymen. Evolution
was considered, in its relation to
religion and redemption. The dis-
cussions were frank and sharp, but
brotherly. The psychology of re-
ligious experience was also treated,
as well as the question of Christian
union. The relation of women to
education, to the church and to the
club was treated by those papers
from prominent women on the last
afternoon. Prominent educators
and ministers from New York,
Chicago, St. Louis, Washington
City and other cities were present.
Christian Union was a prominent
feature. A committee was appoint-
ed to take under consideration the
best way in which to bring the
question of Christian union to the
attention of all religious organiza-
tions. It was further decided that
the committee submit a report to
the National Christian Conven-
tion, which meets at Minneapolis
next October. The committee con-
sisted of M. Harcourt, of Cincinnati,
W. T. Moore of Columbia,
Mo., C. L. Loos of Lexington, J. H.
Garrison of St. Louis, J. W. Mc-
Garvey of Lexington, J. B. Briney
of St. Louis and B. B. Tyler of
Denver, Col. The next Congress
will meet at Cleveland, O. J. J.

attention of all religious organiza-
tions. It was further decided that
the committee submit a report to
the National Christian Conven-
tion, which meets at Minneapolis
next October. The committee con-
sisted of M. Harcourt, of Cincinnati,
W. T. Moore of Columbia,
Mo., C. L. Loos of Lexington, J. H.
Garrison of St. Louis, J. W. Mc-
Garvey of Lexington, J. B. Briney
of St. Louis and B. B. Tyler of
Denver, Col. The next Congress
will meet at Cleveland, O. J. J.
Haley of Cynthiana, was elected
president.

The

gress

brought together
more than two hundred
ministers of the Christian church,
as well as educators, edit-
ors and other laymen. Evolution
was considered, in its relation to
religion and redemption. The dis-
cussions were frank and sharp, but
brotherly. The psychology of re-
ligious experience was also treated,
as well as the question of Christian
union. The relation of women to
education, to the church and to the
club was treated by those papers
from prominent women on the last
afternoon. Prominent educators
and ministers from New York,
Chicago, St. Louis, Washington
City and other cities were present.
